Ahmed Fakhfakh

DevOps Engineer | Certified Kubernetes Administrator (CKA)

+216 28 820 474 | fakhfakh.ahmeed@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

CKA-certified DevOps engineer with hands-on experience in Kubernetes, Azure, CI/CD and infrastructure automation. Full-stack development background supporting application delivery, troubleshooting and collaboration with development teams.

PROFESSIONAL EXPERIENCE

DevOps Engineer Jun 2026 - Present

Bestlab *Tunis, Tunisia*

- Expanded the OVH Kubernetes control plane from **1 to 4 nodes** to strengthen high availability; validated critical cluster components.
- Standardized reusable **GitLab CI/CD** pipelines with quality gates using Kubeconform, Checkov, Kubesec, OPA/Conftest, Semgrep and Trivy.
- Deployed and configured applications on **Kubernetes** using **Argo CD, Helm charts and Vault**.
- Implemented **OpenBao Kubernetes authentication** using projected JWTs, TokenReview and least-privilege policies; tested authorization in preproduction.
- Automated **NetBox** inventory synchronization for **7 nodes and 600+ Kubernetes Services** using Python and REST APIs.
- Operated Odoo and PostgreSQL in preproduction and production using Helm and Argo CD; monitored capacity and incidents with **Prometheus, Grafana and Alertmanager**.
- Standardized **NGINX/Caddy** configurations across environments using templates and automated validation.
- Implemented LLM observability with **OpenTelemetry GenAI** to monitor latency, costs and response quality.
- Built and deployed **Smart Commit**, a Conventional Commits tool with AI-assisted suggestions, desktop packaging and GitLab CI/CD; validated it on developers' workstations.

Freelance DevOps Engineer Mar 2026 - May 2026 (3 months)

Project-based client engagements *Remote*

- Administered **Azure AKS**: namespaces, RBAC, Entra ID/Azure AD, networking and TLS with NGINX Ingress; managed infrastructure with **Terraform**.
- Built **GitHub Actions** pipelines to build Docker images, publish them to ACR and automate AKS deployments.
- Configured HPA, probes, resource limits and Prometheus/Grafana monitoring; resolved pod, image pull, DNS and inter-pod networking issues.

Freelance Full-Stack Developer Oct 2023 - May 2025

Local and French client projects *Distributed team*

- Worked for nearly a year in a **4-person team** on a French client's React/Node.js/PostgreSQL platform, implementing authentication, roles, Stripe payments, webhooks and Socket.IO features.
- Delivered websites for SMEs in parallel, using MongoDB and MySQL; deployed applications with **Docker and NGINX** and provided maintenance and client support.

Full-Stack Developer Intern - Final-Year Project Feb 2023 - Aug 2023

TAC-TIC *Tunis, Tunisia*

- Built a smart recycling platform with Spring Boot microservices, RabbitMQ, MySQL, React and Flutter clients, and **Jenkins/Docker CI/CD**.

TECHNICAL SKILLS

Cloud & infrastructure: Kubernetes, Azure AKS/ACR, OVH, Docker, Helm, Terraform, Ansible, Linux, Bash
CI/CD & security: GitLab CI/CD, GitHub Actions, Jenkins, Argo CD, OpenBao/Vault, Checkov, OPA/Conftest
Observability: Prometheus, Grafana, Alertmanager, OpenTelemetry, NetBox
Development & data: Python, REST APIs, Node.js, React, Spring Boot, PostgreSQL, MySQL, MongoDB

EDUCATION & CREDENTIALS

Engineering Degree in Computer Science - ESPRIT, Tunis Feb 2025
Certified Kubernetes Administrator (CKA) - The Linux Foundation / CNCF Dec 2025
AZ-104: Microsoft Azure Administrator - Microsoft Oct 2026

LANGUAGES

Arabic: Native | **French**: Fluent | **English**: Intermediate
